PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate currently pursuing MSc Information Technology at Sardar Patel University. Hands-on experience with Python, MongoDB, n8n workflow automation, API integration, and web technologies. Strong academic achiever — secured University Rank 8 and College Rank 4 in B.Sc., and University Rank 7 and College Rank 3 in MSc IT. Passionate about software development, AI-powered automation, and building data-driven solutions.

EDUCATION

MSc Information Technology

2025 – 2027 (Pursuing)

Shree Alpesh Patel Postgraduate Institute of Science & Research, Anand
Sardar Patel University, Vallabh Vidyanagar

University Rank: 7 | College Rank: 3

B.Sc. Computer Science

2022 – 2025

M.B. Patel Science College, Anand
Sardar Patel University, Vallabh Vidyanagar

University Rank: 8 | College Rank: 4

TECHNICAL SKILLS

Programming Languages:	C, C++, Java, Python, PHP
Databases:	MySQL, MongoDB (CRUD, Collections, Aggregation Framework, Query Optimization)
Web Technologies:	HTML, CSS, JavaScript (Basic)
Automation & Workflow:	n8n Workflow Automation, API Integration, Webhook Integration, Data Processing Pipelines, AI Workflow Automation
Tools & Platforms:	Git, GitHub, VS Code, MongoDB Compass, Postman, MS Office

PROJECTS

AI-Powered Workflow Automation using n8n

Tools: n8n, APIs, MongoDB

- Created automated workflows using n8n to reduce manual work and improve operational efficiency.
- Integrated third-party APIs and webhooks for real-time data processing and event-driven automation.
- Stored and managed workflow data in MongoDB using collections and document-based design.
- Designed end-to-end data processing pipelines incorporating AI workflow automation techniques.

Task Management System

Technologies: Python, MongoDB

- Developed a task management application using Python with full CRUD operations.
- Implemented MongoDB as the backend database with collections and document-based data modeling.
- Designed user-friendly data management features enabling efficient task creation, update, and deletion.
- Applied query optimization techniques to ensure fast retrieval of task records.

ADDITIONAL SKILLS & STRENGTHS

MongoDB:	Database Design, CRUD Operations, Collections & Documents, Aggregation Framework (Basic), Query Optimization
n8n:	Workflow Creation, API & Webhook Automation, Data Processing Pipelines, AI Workflow Automation
Soft Skills:	Problem Solving, Fast Learner, Team Collaboration, Attention to Detail

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
